COMPANY OVERVIEW

For nearly twenty years SALTO has been synonymous with innovative access control and electronic locking solutions that have set new standards in security, manageability, flexibility and design. In 2001, SALTO revolutionised access control with the introduction of the SALTO Virtual Network (SVN) data-on-card technology and the battery-operated wire-free electronic lock range. Since then, SALTO has been widely recognised as a global market leader in electronic access control solutions across a broad range of industries and applications.

SALTO'S SOLUTIONS WILL IMPROVE YOUR:

Security

With patented fast and reliable data-on-card technology

Flexibility

Say goodbye to mechanical keys and costly maintenance

Design

Offering a huge range of hardware which fits virtually any door

Management

Save time and manage all access points from one software package

OUR SOLUTIONS

SALTO KS

SALTO KS - Keys as a Service - provides a flexible, cloud-based access control system that requires no software installation or the added expense of a fully-wired electronic product. All that is needed is an online device with an internet connection. The solution also incorporates state-of-the-art security measures which are updated regularly. With SALTO KS you can control locks, people, messages and important access rights with no hassle. Managing doors, keys and users has never been easier.

SALTO SPACE

SALTO's SPACE access control technology platform is designed to give end users ultimate freedom of choice regarding system layout, type and number of access points as well as level of security. SALTO offers a wide range of technologies and system layouts; from a highly capable mid-range ROM system to the data-on-card SALTO Virtual Network (SVN) system and the wireless online (BLUEnet) system, SALTO has a solution for any building. Users can upgrade anytime and even mix and match several technologies.

RESIDENTIAL SMARTLOCKS

Open the door to the latest in home security with the Danalock electronic smart lock. Sharing access has never been easier; you can receive notifications when the lock is used - and by whom - along with impressive features that eliminate the problems of mechanical keys. And in addition, Danalock senses your presence and knows just when to unlock or lock the door. Danalock's installation is so simple, you can do it yourself in 5 minutes or less, and the products integrate with all of the leading smart home systems.

OUR CUSTOMERS

COMMERCIAL

SALTO's solutions are installed in many types of commercial buildings, where they provide security, access control and staff and workforce management.

EDUCATION

Security measures in this sector need to be effective but unobtrusive. SALTO provides 24/7 security to ensure the safety of both students and staff.

HEALTHCARE

SALTO's platforms are designed to give users ultimate freedom of choice regarding system layout, type and number of access points for healthcare environments.

RETAIL / COWORKING

SALTO offers a simple, secure access control solution for shared buildings, enabling effortless management of spaces - saving time and money in the process.

HOSPITALITY

SALTO's broad product range covers every aspect of the access control spectrum; from back-of-house to guest services doors and guest room doors management.

RESIDENTIAL

Smart locks replace the traditional mechanical door key with an electronic system that enables your smartphone to control your door, your guests and your home.
