Green Scientific

The Owners Jeff & Heidi Green have over 22 years experience in the Scientific Industry. They have recently established Green Scientific to enable them to offer high quality equipment at affordable prices to their customers, mainly due to bulk purchases coupled to very competitive lower shipping costs.

Green Scientific is now offering the World renown, high quality (Made in Germany) Poulten Graf Fortuna Optifix Bottle Top Dispensers, with a wide variety of either Polypropylene or PTFE Adapters being available to suit most Laboratory Bottles. Suitable for dispensing Conc., Acids, Caustics, Solvents and HF, as well as other aggressive Reagents including sterile Bacteriological Media.

10% of profit to Greening Australia for reforestation.
