

Entrepreneurs' Programme

Are you ready to transform your business?

When you join the Entrepreneurs' Programme, you get practical advice to transform your business, and funding to help it happen. Our team of independent business experts will help your business be more competitive and productive, attract investors, access funding and bring your ideas to life.

How we can help you

Rebuild your business

Get your business in a bushfire-affected area back on track with Strengthening Business.

Grow your business

Improve your capability to trade and export in global markets and build your supply chain performance with Growth Services.

We offer 3 growth services tailored to your business's specific needs – Growth Roadmap, High Growth Accelerator, and SMART Projects and Supply Chains.

On average, every firm that participates creates 4.4 new jobs and generates \$1.56 million increase in turnover in 12 months.

Develop your innovation

Connect with the researchers for collaborative projects to develop new products and solutions with Innovation Connections.

65% of businesses that have undertaken a project have created or expect to create new jobs.

Commercialise your project

Get your novel product, process or service into the market with Accelerating Commercialisation.

Every dollar of Accelerating Commercialisation grant funding attracts \$3.75 of private investment.

Fund your incubator

Receive funding for incubators to support internationally focussed Australian start-ups with the Incubator Support Initiative.

The program difference

At the heart of the program lies our national network of facilitators. Our facilitators are local, independent business experts who will work with you on your business, wherever you are in Australia.

Your facilitator will guide you to be more competitive and productive, work with researchers to develop innovative products and solutions, and commercialise your new products.

You may also be eligible for matched funding to action recommendations from your facilitator, do research projects, help you commercialise, or incubate start-ups.

Join the program
