

**A CONFERENCE
DESIGNED FOR YOU**

An International Conference with a Special Focus on Citizen CPR and the Survivor

**December 8-11, 2015
Manchester Grand Hyatt, San Diego**

Because survivors are such an important part of ECCU, we've designed educational sessions just for you! Check out the conference program schedule on ECCU2015.com – look for daily conference sessions listed under the ECCU Conference Survivor Track – *Community: Prepare, Respond, Thrive and Survive.*

SURVIVORS PLAY A SPECIAL ROLE AT ECCU. Survivor stories are important because they serve as a catalyst for community action. Come share your story, honor your rescuers, give back to your community, and meet the scientists and community champions who are all gathering at ECCU 2015!

Thursday, December 10, 2015, 11:25 AM – 1:25 PM

CPR SAVES LIVES MARCH at ECCU!

As part of the Emergency Cardiovascular Care Update Conference (www.eccu2015.com), join 1500 survivors and conference participants in the Citizen CPR Foundation's first ever CPR SAVES LIVES MARCH! Help us bring attention to the hundreds of thousands who could survive with more CPR, more AED's and better care.

On Thursday, December 10, we will march from the Manchester Grand Hyatt to the San Diego Civic Center. We will have banners and signs calling for more action, flags for our registrants, partners and exhibitors to carry, a drum line, police cars and fire trucks! Help make this important message heard.

At the Civic Center, officials and the press will join us to hear inspirational stories from survivors, recounting their rescues and the lives they have lived since. We will make time for lunch at the event, but most importantly, ECCU will raise a call in a very public way for more CPR training, more AED placements and more education so others can live.

SPECIAL PRICES JUST FOR YOU

Survivors, family members and their citizen rescuers can attend for only \$60 per day or \$175 for the full conference!
Go to ECCU2015.com for more information and to register.

At ECCU, attend dynamic sessions designed to meet the needs of Sudden Cardiac Arrest (SCA) survivors, family members, rescuers and community advocates with presentations from leaders in the field.

ECCU Conference Survivor Track - Community: Prepare, Respond, Survive and Thrive

SESSIONS

Preparing Your School for a Cardiac Arrest Emergency

A Baseline Study of Public Awareness: To Move the Save Rate from Out-of-Hospital Cardiac Arrest, We Must Move Communities to Action

About the Citizen CPR Foundation and ECCU Founded in 1987, the Citizen CPR Foundation (CCPRF) is a non-profit organization with the mission to save lives from sudden death by stimulating citizen and community action. Its founding partners are the American Heart Association, the American Red Cross and the Heart and Stroke Foundation of Canada. ECCU is the Citizen CPR Foundation's dynamic biennial conference that promotes and celebrates the art, science, and impact of cardiac resuscitation. It is the premier venue to bring together every link in the "Chain of Survival".
