### **Looking at your apprenticeship curriculum delivery through the Ofsted lens**

by Richard Moore, Richard Moore Solutions

The themes in this webinar draw on a number of challenges that emerged from providers' discussions and feedback whilst attending the AELP's 'Day with Ofsted' event held online in January of this year.

We will examine the challenges providers face in designing and sequencing their curriculum, ensuring effective initial assessment of learners' pre-existing knowledge and skills and getting genuine employer involvement and buy in to your apprenticeship offer and delivery. In doing so, I will draw on some of the best practice I see from the many training and employer providers whom I work with nationally and give you an Ofsted perspective on what 'good or better' looks like for these key parts of an apprentice's 'learner journey'.

### **Regulatory EQA – a look forward**

by Steve Walker, Ofqual

A look at the continuing development of Ofqual's regulatory tools for use in the regulation and External Quality Assurance (EQA) of apprenticeship End Point Assessments (EPA).

- 🌱 The session will include the following topics:
  - 🌱 Where intelligence and evidence is gathered from
  - 🌱 What data informs consideration of risk
  - 🌱 What tools are best used for regulatory EQA
- 

### **Increasing transparency in apprenticeship funding: an update**

by Anna West, IfATE

The Institute for Apprenticeships and Technical Education is updating the process for setting funding for apprenticeships. The new system will be more transparent, more consistent and provide better value for money.

Following 2 consultations and a range of wider stakeholder engagement this session will provide an update on the status of the new process and the next steps in its development. There will also be an opportunity for questions and to share any further insight.
