

Cybersecurity's Increasing
Role in the **Future of Work**

Some Feedback from the Workforce

- In a recent workforce survey, A whopping 74% of respondents in an annual survey believe that flexible working has become the “new normal.”
- In recent report from Zillow, more than half of home buyers who work remotely say remote work influenced a major home change, whether that’s moving to a different house (28%) or to a different location (24%).

Trends in the workplace

- Hyper-connectivity
- Anywhere
- Anytime
- More groups
- De-centralization
- We cannot un-ring the bell

CyberSecurity has a role to play

- Enabling the New Normal
- Empowering the worker
- Utilizing those 'Insiders' that we worry about
- Integration into the Culture

“

The greatest danger in times of turbulence is not the turbulence – it is to act with yesterday’s logic – Peter Drucker

”

THANK YOU
