2018 Speakers

*David Haynes, Ideate, Inc.
Chairperson, Data Day*

David is a Registered Architect and Project Management Certified Professional at Ideate, Inc. David's role at Ideate is to provide thought leadership insight to AECO companies worldwide.

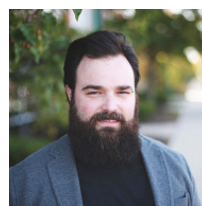

Bill Debevc, Analyst Programmer, LPA, Inc.

Bill Debevc is an expert in Autodesk software and Information Technology (I.T.) specializing in the AEC industry. With over 30 years of experience, Bill shares his knowledge about software and hardware helping the AEC industry achieve its full potential.

*Jon Anunson, Senior Global Manager,
Process & Metrics, AECOM*

An architect and database designer, Jon has been working with rich 3D data for over 25 years. He currently manages programs and business metrics for AECOM's Design, Construction, Finance, and Operation businesses worldwide.

*Jimmy Rotella, Digital Practice Director,
CannonDesign*

Jimmy has worked for multiple large design firms implementing Revit, developing project standards, managing software and infrastructure, providing technical support for design applications and computers, and teaching in corporate and educational environments.

*AJ Bridwell, Director of Customer Success,
AEC, Invicara*

For more than 20 years, AJ has practiced and helped define the principles of Building Information Modeling – starting with Intergraph PDS to today's more modern BIM authoring platforms.

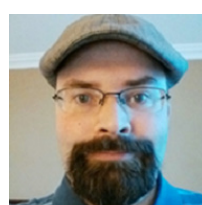

*Konrad Sobon, Design Technology
Specialist, HOK*

Konrad specializes in Computational Design implementation on BIM projects and is an author of several project enhancing applications and workflows. He is also the creator of Mantis Shrimp, Bumblebee, Mandrill and archi-lab plug-ins for Dynamo.

*William Carney, BIM Director, BSA Life-
Structures*

William Carney is the BIM director at BSA LifeStructures where he is responsible for overseeing the firm's use and implementation of design technologies. As an efficiency enthusiast, William seeks to find ways to use technology to streamline BSA LifeStructures multi-disciplined workflows.

Carl Storms, IMAGINiT Technologies.

Drawing on his 20 years of experience in architecture, engineering, and construction, Carl provides a practical and well-rounded understanding of BIM to clients. He's worked in residential and commercial architecture, as well as construction with nearly 10 years of teaching experience at the collegiate and industry level.
